

Partners On-Line

SOUTHEAST AREA:

"Small Business is **BIG** Business"

July 2008

Welcome to the Southeast Area Partners On-Line (Partners), an on-line source of small business concerns located in Delaware, Maryland, Georgia, Alabama, Louisiana, Mississippi, Indiana, Kentucky, Tennessee, Florida, North Carolina, South Carolina, Virginia, West Virginia and the District of Columbia that accept the Citibank MasterCard. We've broken the Partners On-Line listing into four areas of the United States: Northeast, Southeast, Midstates, and Western as we've found that most cardholders want to buy from local firms. The list has also grown substantially with now over 500 small business sources nationwide that can meet your micro purchase needs (less than \$3,000). This source also spotlights both Information Technology (IT) and Non-IT small businesses offering their products and services to the IRS via the purchase card. **The newly added small business sources are highlighted in red text.** Each company's socioeconomic status is also identified, i.e., small business (Small), HUBZone small (HUB), small disadvantaged business (SDB) or 8(a) business enterprise (8-a), woman-owned small business (WOSB), veteran-owned small business (VOSB), and/or service disabled veteran-owned small business (SDVOSB). Even though the companies in each listing are segregated according to geographical regions, most of these companies provide products/services on a nationwide scope. Thank you for considering small businesses.

Allegheny Distributors, Incorporated (WOSB)

P.O. Box 532

Waverly, WV 26184

POC: Susan Saunders, President

Tel: 304-482-7210

Fax: 443-331-0677

Web: www.alleghenydist.net

Allegheny Distributors, Inc. is a small business concern. They distribute degaussers for computer data security. Degaussing is used for security purposes in the government and military, as well as in the private sector. Declassification of magnetic tape and optical media by degaussing is a primary computer security protection method. Degaussers are used for the complete erasure of data and other signals on magnetic or optical media, totally removing sensitive data and/or rendering the media totally obliterated. It is a fast and efficient process to remove all video, audio and data signals from magnetic media, restoring it to its original or "blank" state; ready for re-use or standard disposal. The data-bearing surface is completely removed from CD's; ensuring optical media is completely sanitized of all confidential information. Degaussers are available in manual operation or electrically powered units, and vary in type, power, and construction. Major applications may include MIS Technical Support, Audio/Video and Broadcasting studios, Government and Military Security, Banking and Financial Institution Corporate Security, Law Enforcement, Surveillance or Computer Security, or Media Reprocessing.

Chesapeake Embroidery & Design (WOSB)

5272 River Road, Suite 200

Bethesda, MD 20816

POC: Sheila Geraci or Marcia Custer

Tel: 301-907-8228

Fax: 301-907-8510

Web: www.chesembroidery.com

Email: marcia@chesembroidery.com

Chesapeake Embroidery & Design manufactures embroidered apparel, gifts and promotions and offers a wide variety of products from top-notch manufacturers including shirts, jackets, sweaters, caps, towels, bags and more. We provide screen-printing and appliqué as additional embellishment options. Orders can be placed on-line at our web site. Our first job with the Treasury Department came from a Treasury employee who ordered an embroidered appliqué of the logo for the rock group "Little Feat" and the American Flag embroidered on her leather jacket. Because she was completely satisfied with the work performed by Chesapeake Embroidery, she referred the company to her manager who had just created a logo for IPAC, the Intra-governmental Payment and Collection System and wanted it digitized (converted into embroidery) and embroidered on denim shirts for her group. She ordered 66 shirts.
